

SURAJ KUMAR

AUDIT & AT ENGINEER

+91 7780060677 | surajxu@gmail.com | [LinkedIn](#) | [Portfolio](#) | Gurgaon, Haryana

Professional Summary

Quality & Audit Engineer with experience in telecom infrastructure, specializing in DLP defect and NC (Non-Conformance) management, corrective-action tracking, and acceptance/audit activities. Skilled in vendor coordination, work validation, ticket and task tracking, compliance monitoring, and reporting across multi-stakeholder operations. Experienced in maintaining accurate quality records, monitoring backlogs, and supporting timely closure of field and operational issues across Pan-India fiber network operations.

Core Skills

- **Data Analysis & Reporting:** MIS Reports, Dashboard Creation, Data Analysis, Backlog Tracking, Performance Monitoring, Data Visualization, Daily/Weekly/Monthly Reporting
- **Tools & Platforms:** Microsoft Excel (Advanced – VLOOKUP, Pivot Tables, Data Validation), Google Sheets, Jira/Portal Systems
- **Telecom /Technical:** Basic Networking, Fiber & OSP Infrastructure Understanding, Basic Hardware Troubleshooting
- **Quality & Audit:** Fiber Network Audit, Work Validation, Quality Checks, NC Issuance & Management, DLP Defect Management, Corrective Action Follow-up, Compliance Monitoring, Acceptance Activities
- **Operations Management:** Basic Networking, Fiber & OSP Infrastructure Understanding, Basic Hardware Troubleshooting
- **Stakeholder Coordination:** Cross-functional Coordination, Issue Follow-up, Documentation, Process Monitoring, Timely Closure

Experience

- ✓ **Audit & AT Engineer** | Airtel (Teamlease Ltd.) Jun 2024 – Present
 - Inspect fiber network work quality across Pan India, validating completed tasks through portal systems and issuing NCs for required corrections
 - Monitor DLP defects and coordinate with field teams, vendors, and internal stakeholders to drive corrective actions through to closure
 - Track backlog status across circles and zones, flagging aging items and escalating stalled cases to keep closure timelines on track
 - Prepare and maintain hourly, daily, weekly, and monthly reports tracking completed, pending, and non-compliant activities to support backlog monitoring
 - Maintain accurate records of quality findings, defects, corrective actions, and closure status across multiple circles/zones
 - coordinate with partner engineers and vendors to align on inspection findings and resolve disputed or unclear NC cases
- ✓ **Vendor Management** | GreyOrange (Seventh Edge Ltd.) Mar 2024 – Jun 2024
 - Managed the complete ticket lifecycle — raising, assignment, resolution, and closure — through portal systems
 - Handled invoices and budgets through portal systems, validating charges against agreed scope before processing

- Validated invoices and coordinated with relevant departments to ensure timely and accurate vendor payments
 - Monitored pending tickets and followed up with stakeholders to ensure timely resolution
 - Coordinated with multiple departments and vendors to maintain workflow efficiency and resolve operational issues
 - Maintained vendor and operational records in Microsoft Excel and Google Sheets, supporting accurate tracking and documentation of vendor transactions
- ✓ **Coordinator** | V Protect India Pvt. Ltd. (HRBUZZ Staffing) Aug 2023 – Dec 2023
- Coordinated and aligned field technicians for technical issue resolution and on-site client support
 - Arranged entry/access allowances for technicians to facilitate access to client locations
 - Communicated directly with clients to understand reported technical issues and coordinate appropriate resolution
 - Monitored alarms and tickets, guiding technicians remotely through troubleshooting and issue resolution
 - Created security incident dashboards for monitoring and reporting; optimized deployment of security personnel for effective outcomes
 - Coordinated replacement of defective devices, tracking shipments through delivery and installation

Projects

- ✓ **Work Automation Pro | Workflow Automation Web Application** | [Repository](#) | [Web App](#)
- A specialized web app that eliminates manual data entry by automatically extracting data from Word documents and managing localized Excel files directly in the browser.
 - It features a server-less local database and a responsive Tailwind CSS dashboard for instant record retrieval and real-time task tracking.
- ✓ **NotesCopyPaste | Operational Efficiency Utility** | [Repository](#) | [Web App](#)
- A lightweight web-based clipboard tool designed to easily store, organize, and quickly retrieve frequently used text snippets.
 - It streamlines daily administrative workflows by reducing repetitive typing and ensuring fast, consistent office communication.
- ✓ **Personal Portfolio | Frontend Development** | [Repository](#) | [Web App](#)
- An interactive and responsive website built to showcase technical skills, professional milestones, and deployed applications.
 - It leverages modern UI/UX design principles to deliver a seamless, high-performance experience across all devices.

Education

B. Tech - Mechanical Engineering, Vinoba Bhave University, 2017 – 2021
